------------	--------------	---

PROPOSED STREET NAME(S)	CENTERLINE LENGTH, FT.	SURFACE TYPE

It is our intention that the streets will be privately owned and maintained:
 After construction is complete, it is our intention to petition City Council to accept the street into the public street system:

- This permit is valid for up to 18 months from the date of issuance.
- Streets must be constructed according to the approved plans.
- The construction of the street must be certified by a registered professional engineer.
- For streets to be accepted into the public street system, the following additional information must be submitted: Density reports for subbase, base and asphalt; bituminous and concrete mix designs; concrete strength reports; and material certifications for sand and gravel gradation, concrete and asphalt.
